Table with 5 columns: Grant Notes, FCC Rule Parts, Frequency Range (MHZ), Output Watts, Frequency Tolerance, Emission Designator. Row 1: 15C, 902.5 - 927.5, 0.063

Limited Modular Approval. Power listed is conducted. Approval is limited to OEM installation
only and must be professionally installed. Compliance of this device in all final host
configurations is the responsibility of the Grantee. This device is limited to an installation
configuration as it was tested and represented in the original application. OEM integrators
must be provided labeling requirements for finished products. OEM integrators are
instructed to ensure that the end user has no instructions to remove or install the device.
The antenna used with this device must only be the antenna that was tested in preparation
with this application. Separate approval is required for all other operating configurations. A
separation distance of 20 cm must be maintained between the radiating elements and all
persons in the final configuration of this device.
